About Medications

All medication must be provided by participants. All medications should be placed in a resealable bag (e.g., Ziploc) with the participant's name on the outside of the bag. Medications must be in original packaging, clearly labelled with the participant's name and dosage instructions. Medications are to be given to the first aider or designated Guider upon arrival at the activity. Medications are to be self-administered by the participant except in cases where supervisors may need to assist younger girls.

In the case of life-threatening conditions, supervisors are obligated to provide the girls they supervise the 'standard of care' of a careful or prudent parent adults and will need to administer an Epi-pen or assist with an inhaler if the girl is incapacitated. Anaphylaxis Canada has information on living with anaphylaxis at www.anaphylaxis.org. Safe4Kids at <http://www.safe4kids.ca/> is their site specifically for children with anaphylaxis.
